

Jigsaw cities: Big places, small spaces (CASE Studies on Poverty, Place & Policy)

Through a close look at major British cities, using Birmingham as a case study, the book explores the origins of Britain's acute urban decline and sprawling exodus; the reasons why one size doesn't fit all in cities of the future and the potential for smart growth, mixed communities and sustainable cities. Based on live examples and hands-on experience, this extremely accessible book offers a unique insider perspective on policy making and practical impacts. It will attract policymakers in cities and government as well as students, regeneration bodies, community organisations and environmental specialists.
