

Prosopographia Militiarum Equestrum quae fuerunt ab Augusto ad Gallienum: Laterculi Alarum, Cohortium, Legionum (Symbolae Series a) (English and Latin Edition)

Prosopography remains, for the period of the Roman Principate, a basic research instrument. The exhaustive collection of biographical notes on a specific social group, in this case the equestrian officers, transcends the individual, the anecdotal, and makes it possible to trace variables and constants within the evolution and to reveal structures. This is Part VI of six parts.
